

-NEWSLETTER-

EMPLOYEE OF THE MONTH

August's Employee of the Month goes to Khan, in recognition of his ability to step up when we need him most. He has taken on the responsibility of looking after our remote locations, consistently delivering the high level of service we pride ourselves on. His willingness to take responsibility and support the wider team has not gone unnoticed. Congratulations, Khan! A well-deserved Employee of the Month.

Tradie Tuesday

Research shows 7 in 10 tradies experience burnout. Work hard, but remember to switch off, have a laugh and enjoy yourself too.

What's Happened this Month

August has flown by, and while winter is still hanging around, summer is just around the corner! Our team has been busy getting clients' systems ready for the warmer months, along with a few exciting things happening around the Hot Chilli office. So, grab a cuppa and see what we've been up to!

It's not all bad being a fridgie, sometimes the job takes you to some pretty spectacular spots! This month, Memphis and Ryan headed out to a water treatment plant beside a beautiful dam, getting stuck into servicing the condenser coils to keep the system running efficiently. Regular preventative maintenance helps keep air conditioners performing at their best. A little TLC now can save a lot of headaches when summer hits! And while we're all for getting the job done... we reckon this work site was only missing one thing a couple of fishing rods!

Back in June, the team wrapped up the installation and commissioning of a Temperzone 840 split ducted air-conditioner and, as usual, they nailed it! The project was completed within all the required timeframes and tender specifications, making it another successful job ticked off the list. But we don't believe in the classic "install it and forget about it" approach. We'll be keeping the system in top shape with scheduled preventative maintenance, helping it run efficiently and reliably for years to come. Good installation + good maintenance = happy air-con!

If you've driven past the Hot Chilli office recently, you may have noticed something looking a little... flashier! We've upgraded the signage outside the office, and let's just say, you're going to have a hard time missing us now. Our new sign is officially up and looking pretty schmick, proudly showing off the Hot Chilli pink. So, if you're driving past and spot that big beautiful Hot Chilli sign... yep, that's us! Give us a beep to say hello!

It's not all work, work, work! Over the weekend, the Hot Chilli boys swapped their work boots for mini golf clubs and axes for a bit of team bonding. A few rounds of mini golf, some axe throwing and plenty of laughs, because apparently, nothing says team bonding quite like

handing the boys sharp objects! Everyone survived, although we're still waiting to hear who's claiming the Hot Chilli Mini Golf / Axe Throwing Champion title. We suspect there may be some disagreement over the results!
